

BARNAUT GRAND CRU AUTHENTIQUE ROSÉ BRUT NV

certified sustainable (HVE and VDC)

Philippe Secondé manages the artisan house of Barnaut in Bouzy, a village long famous for distinctly full-bodied Champagne on the southern flank of the Reims Mountain. In 1874, his forefather Edmond Barnaut was one of the first to break the ranks of the *grandes marques* to become a récoltant-manipulant. The domaine farms 32 parcels on 28 acres of vines on Bouzy's foothills and makes a range of Grand Cru Champagnes acclaimed for density and depth.

VINEYARD

- Site:** From parcels in Bouzy on the south-facing slope of the Montagne de Reims.
- Soil:** Champagne's famous campanian chalk with little topsoil.
- Vines:** Mature: averaging 35 years of age. No herbicides (only light plowing) or pesticides; organic composts; minimal fungicides. Hand-harvested. Certified HVE (High Environmental Value) and VDC (Sustainable Viticulture in Champagne).
- Varieties:** Pinot Noir with 10-15% Bouzy Chardonnay added for freshness.

CELLAR

- Vinification & Aging:** *Authentique* because this is an ancestral *saignée* method rosé. Fruit sorted on a vibrating sorting table and then pressed with a state-of-the-art pneumatic press and exposed to oxygen to allow for potentially oxidative elements to fall out—sulfur additions consequently reduced. Parcels vinified individually in stainless steel with indigenous yeast. Undergoes malolactic fermentation. Reserve wine from a solera system maintained by five generations of Barnaut descendants.
- Dosage:** 6 g/l.
- Production:** 1,250 cases.
- Profile:** Powerfully and deliciously marked by Pinot Noir, this rosé champagne is made unapologetically for the table.
